

ADAMS COUNTY/OHIO VALLEY SCHOOL DISTRICT

POWER STANDARDS (INDICATORS)

SCIENCE GRADE TWO

Standard – Earth and Space Science

Observe constant and changing patterns of objects in the day and night sky (e.g., phases of the moon).

Observe seasonal changes in weather (e.g., measure temperature and precipitation).

Standard – Life Science

Identify living and non-living things, basic needs of living things, (food, air, water, and shelter) their environments, and different structures.

Compare the habitats of many different Ohio plants and animals and how they depend upon each other during the different seasons.

Standard – Physical Science

Explore and describe sounds, light (e.g., how they affect living things).

**ADAMS COUNTY/OHIO VALLEY SCHOOL DISTRICT
POWER STANDARDS (INDICATORS)**

**SCIENCE
GRADE TWO**

Standard – Science and Technology

Explain why people build or make something and how it affects people in the environment using the scientific method.

Gather and communicate information using a variety of methods and appropriate tools and equipment.

Standard – Scientific Ways of Knowing

Describe ways in which using the solution to a problem might affect other people and the environment.
