BUILDING DEMOLITION UPDATE

This is somewhat of a bittersweet time in our school district as the old elementary buildings are starting to come down to the ground. Saying farewell to an old structure is always tough, whether it is the house you grew up in, the school you attended, or the church where you worshipped. I think we can all relate to those feelings. The structures may go away, but the pictures and memories remain. Fortunately, money was built into the construction project from both state and local levels to cover the demolition costs. In this manner, we don't have to watch those buildings decay brick by brick, window by window. Demolition will, hopefully, be completed by September 1st at all three sites.
